 Container Pressen | Schneckenverdichter | Ballenpressen | Umlade- und Verschiebeanlagen | Hub-Kippvorrichtungen
Compactors | Auger Compactors | Balers | Transfer and Shifting Stations | Bin Lifters

Megapress MK3

roll on, roll off container

Versatile and effective

The PRESTO Megapress can be used with large amounts of recycled material, cardboard, pallets, furniture and other types of dry, bulky material.

A compactor that is firmly connected to the container compacts the material effectively.

Easy and safe

Reliable function and user-friendliness go without saying for the PRESTO Megapress MK3 products. Not only in operation, but also in terms of integration into the working environment.

The use of a Megapress does not require any special construction work. An electrical power supply is all that is necessary for putting it into service.

Carefree disposal

The reuse of recycling material or disposal of waste is an important task in the business activities of many companies.

Our long-standing experience in environmental technology, most modern development and production methods allow us to manufacture products which our customers use as a functional and cost-efficient link in the chain of recycling material compaction and disposal.

Tailored for customer needs

No matter how many kinds of dry materials are being generated and to be disposed, PRESTO Megapress mobile compactors can be used.

A large choice of accessories allows us to meet most of the customer's specific requirements.

Talk to us!

Features and benefits

- The particularly low feeding opening (1.120 mm) and large filling chamber (5 m³) allows a light, user-friendly filling.
- Large, double-leaf service doors allow an accessible, uncomplicated maintenance.
- Hydraulic and electrical parts do not come into contact with waste, and thus enable a simple and safe handling of the cleaning and low-maintenance pendulum press.
- Due to the side-operated central locking, the safe and fast opening of the emptying door is guaranteed.
- The expanding roof ensures easy emptying.
- The rib-free structure offers you large advertising space.

Guaranteed powerful performance

The wear-resistant press chamber and the resistant press plate with 50 tons pressing force compact effectively and securely even the toughest materials.

Another advantage is the stable corner profiles and the robust container body.

Handling of the PRESTO Megapress is easy, a foundation is not required, and the unit can be put into service immediately.

Of course our paints are lead- and chromium-free and you can select the colour of your choice.
