

Perforator

type PF

Simply powerful

PRESTO perforators can be used wherever PET bottles, beverage cans or bags containing them need to be devalued and shredded. The perforator increases the throughput capacity of the compactor and the degree of compaction.

The PRESTO perforator as your functional aid for effective handling of recyclable materials. We design the optimum solution for your disposal needs.

Individually usable

for materials and recyclables like PET bottles or bags filled with PET bottles, beverage cans

for industries such as beverage industry, central warehouses, retail chains, discounters and many more

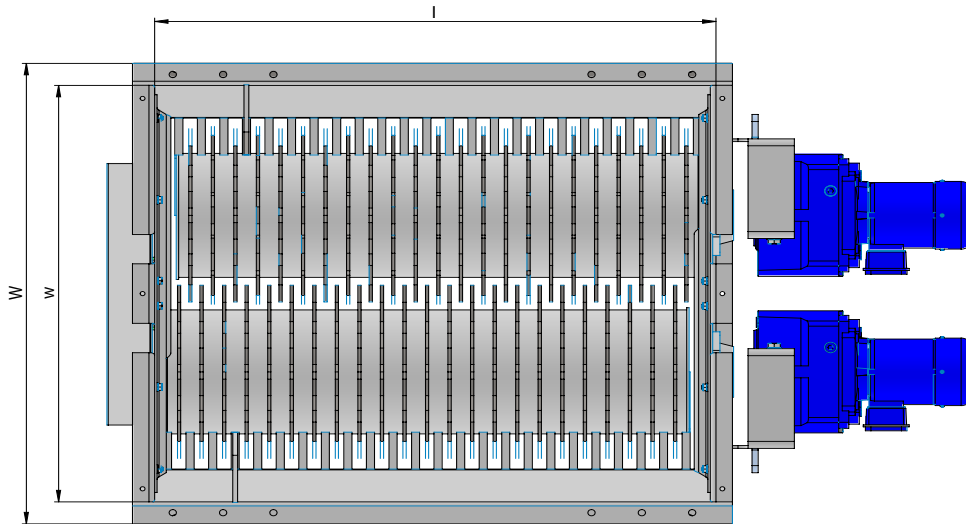

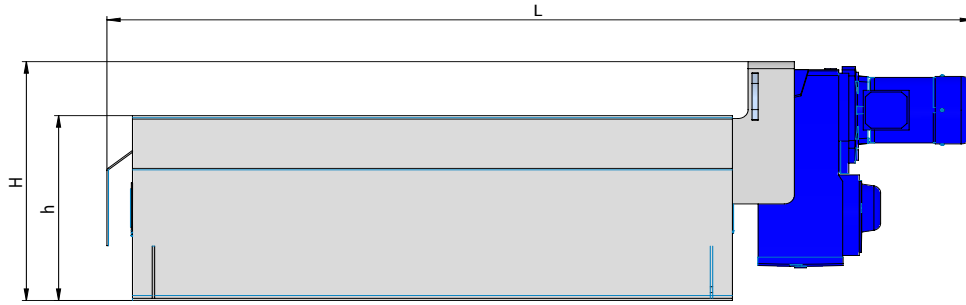

Versatile & efficient

-  Material intake and perforation of two counter-rotating, highly wear-resistant serrated rollers
-  Pre-compaction in auger compactor or channel baler for integration into work and product processes
-  Stand-alone version for perforation, devaluation or shredding
-  Low-maintenance operation due to reversing control

Economical & elegant

-  RAL color selection from a variety of lead and chromium free paints
-  High safety and protection standards
-  Low-maintenance operation thanks to reversing control
-  high-quality components guarantee functional reliability and low-noise operation of < 65 dB (A)
-  Many years of experience in construction, design and project planning

		PF 44	PF 80
Length (L)	mm	2155	2175
Width (W)	mm	1320	1320
Height (H)	mm	685	685
Frame height (h)	mm	530	530
Filling opening (l x w)	mm	1380 x 1200	1380 x 1200
Rotational speed	n/min	13/13	20/20
Machine weight	kg	1450	1500
Motor power rating	kW	4,4	8,0
Electrical power supply	3 L / N / PE; 400 V, 50 Hz
